INFONOVA ANNOUNCE THAT CROWN INTERACTIVE HAS SELECTED THE RELEASE 6 FOR THEIR NIGERIAN OPERATIONS

GRAZ, AUSTRIA – May 12, 2010 – Infonova, one of the leading Next Generation BSS vendors, today announced that Crown Interactive will use the Release 6 to support their multi-tenant bureau operations that will offer a combination of mobile, fixed network and media services for the mass market.

“Crown Interactive are in advanced discussions with a number of partners on both the supply side and on the tenant side of our bureau service operations” said Wumi Oghoetuoma CEO Crown Interactive, “the Release 6 gives us the flexibility to rapidly connect and establish both suppliers and channel partners to offer triple and quad play services to the market. The Release 6 provides our tenants with the capability to support complex business models and collaborate in Industry and Corporate Convergence to offer a combination of services to their end customers.”

“Infonova are thrilled that Crown Interactive has chosen the Release 6 for what is one of the most important growth markets in Africa” said Andrew Thomson, SVP of Infonova, “the Release 6 capabilities future proof Crown Interactive to aggregate any type of new services, such as Cloud, Insurance, Power... that their tenants may wish to bundle and offer in the future.”

About Crown Interactive

Crown Interactive has been delivering innovative, well-architected solutions to the Telecoms, Media and Technology (TMT) sectors since its inception in January 2005. Crown Interactive’s expertise in business process reengineering and multichannel service using best practice frameworks have seen it evolve as influential assets in Business and Contact Transformation Programs.

Having understood the repeated pain of Service Providers to integrate multiple complex legacy systems, simplify offers and manage their various channels to the end user, Crown Interactive now offers Solutions powered by Infonova as the preferred end-to-end BSS platform.
